

Large Pneumatic Double Station Heat Press Machine

**Specification:**

Model No.	PY-1 PY-2
Machine Type	Pneumatic Sublimation Heat Press
Controller	Digital Time & Temp. Controller
Voltage	220V/ 380V
Power	9kW/12KW
Time Range	0-999sec.
Max. Temp.	399°C
Printing Area	80cmx120cm/100cmx120cm
Air Compressor	Required
Gross Weight	250kg/300kg
Package Size	110cmx140cmx160cm/140cmx160cmx170cm

Application:

T-shirt, Puzzle, Mouse Pad, Metal Board, Coaster, Slipper, Bag, Cushion, etc.

Features:

1. Solid steel framework & stainless steel hardware.
2. Fully digital temperature & time control.
3. Automatic alarm, temperature & time recycle.
4. Teflon-coated thick heat platen, speed & even heater technology.
5. Pneumatic drive, double platforms, shuttle working table
6. Emergency release device and air regulator monitored.
7. Heat & pressure averaged, thick item like ceramic supported.

Strict Quality Control:

1. Each single heating rod is tested before being casted in an aluminum alloy.
2. Each single digital time & temp controller is tested before assembling.
3. All heat press pass high temp. test (200°C) for at least 20 minutes before packing.
